

Venture Capital Summer Analyst

- Berlin -

You will learn:

You will gain insights in how a venture capital firm works. You will understand the fundamentals of early stage investments and operations. Additionally you will win insights into markets, startups, trends, networks and technologies.

Your tasks will be:

You will meet founders, analyze deal opportunities and prepare investment decisions. You will work on our brand and strategy. You will increase your personal network to media, startups and multipliers. You will prepare market insights for artificial intelligence, drones and robotics. Furthermore you will support us with portfolio and investor relations.

What skills you should have:

You should be a quick thinker. You are open towards new technologies and trends. You have an international mindset. You are analytic and like to ask questions. You are driven and curious. You are hard working and enjoy responsibilities. Please be able to push yourself. We do not wish to check on you all the time.

The basics:

Three months in Berlin. Virtual office + facetime days. Paid.
